

STAG'S LEAP WINE CELLARS

2004 CHASE CREEK CABERNET SAUVIGNON

This limited bottling, created exclusively for our CLUB 23 members, is a tribute to our ongoing effort to give back to the land as much as we receive. Chase Creek is part of a watershed system that is vital to the health of the valley's ecosystem. Recognizing this importance, Stag's Leap Wine Cellars embarked on a creek restoration project in our estate vineyards that was completed in 2004. We thought it only fitting to bottle a wine in this vintage from select parcels near the creek.

WINE

This Cabernet Sauvignon is primarily blended from fruit along the section of the creek that runs through the FAY side of the estate. The wine opens with a magnificent medley of aromas that includes plum, cloves, maple sugar, violets and cedar. Swirl again and discover another layer of characters such as nutmeg, allspice and cherry cola. This wine was barrel aged for over three years, longer than any other wine in our cellar. The barrel tones impart a richness and mouthcoating sensation, but they do not overwhelm the complex fruit flavors of spiced plum, black cherry and mandarin orange. Floral and herbal notes round out the palate of this full bodied wine.

SUGGESTED RETAIL: \$120 per bottle
